

## DISEASES IN CATS

The following are the most common diseases found in cats in Spain:

Diseases Spread By Mosquitoes:

- Heartworm

Diseases Spread By Ticks:

- Lyme disease

Viruses:

- Feline Parvovirus (FPV) also known as feline panleukopenia virus
- Feline Leukaemia (FeLV)
- Feline Immunodeficiency virus (FIV)
- Feline calicivirus
- Feline herpesvirus

Bacteria:

- Chlamydiosis

Worm Infestation:

- Roundworms
- Tapeworms
- Hookworms

All these diseases are preventable and can be treated. Advice on prevention can be found in a separate section

Fact sheets on each disease or condition and their treatment can be found in "The Fact Sheets" section.
